Established in 1995, Santon Workwear is a leading manufacturer of workwear and stockists of a wide range of footwear and PPE accessories. With over 20 years experience in the industry, plus a strong emphasis on the quality of our garments, added to the high levels of service we offer we have grown steadily and are currently producing over 2500 garments daily in our Durban and Hammarsdale factories.

With our head office in Durban and an office in Johannesburg we are able to distribute nationwide, and as manufacturers are able to cater for all orders large and small, from the basics to more complex workwear garments. Santon Workwear has been awarded SABS certification. Our SABS approved garments fall under the Endurance workwear range.

Together with our overalls we are also distributors for many different safety footwear brands namely Bronx, Frams, D.O.T, HI-TEC, Wayne and Bata, and stock all other PPE accessories from T-shirts and golf shirts to hardhats, rainwear and Hi-viz clothing.

We also have our own in-house screenprinting plant and offer embroidery to supply a fully branded product to the customer.
